

What's wrong with me

I don't know why I won't to study Korean language.

What wrong with me.

Let's throw unusual things and make clear with completely different mindsets and make a habit.

First this for become a habit we need to do 4 things (according to Atomic habits)

FIRST LAW "make it obvious"

First what is problems:

1. I can't focus (P1)
2. I didn't study(P2)
3. I use too much phone(P3)

SECOND LAW "make it attractive".

I like to learn new language. (I already know)If I hard work for 3 to 4 and half month then I can change my life forever and I will not step close for my goal. I like to talk with me in different language I current time I talk with me in only English because I lake to talk in English because it's so cool and I want to add another language items introduce Korea language. This is the shortcut for me because I have only one opportunity if I miss this opportunity then I need to do too much struggle.

THIRD LAW "make it easy"

The only one way to improve my Korean language is remember words too much because learning new language is All about word meaning.

FOURTH LAW "Make it satisfying"

When I speak and read in other languages I sastified I don't need to make it satisfy
